ROBERT W. LEHRBURGER, United States Magistrate Judge.

As directed at the discovery conference held via Microsoft Teams on Jun 25, 2024:

1.   Metadata: By Thursday June 27, 2024, Defendants shall inquire with their IT personnel and obtain an answer regarding the two outstanding metadata categories: custodian and filepath. By Friday June 28, 2024, Defendants shall provide Plaintiff with a substantive response as to same and shall provide a date by which those categories of meta data will be provided if they have not otherwise already been provided.

2.   Documents: By July 16, 2024, Defendants shall (i) produce to Plaintiff all responsive, non-privileged documents from Defendants "re-review" of documents; (ii) produce to Plaintiffs all responsive, non-privileged documents obtained from custodians Casasola and Thomas (the "Executive Documents"); and (iii) substantive responses to Plaintiff's questions previously posed in writing about documents they have reason to believe exist but that have not been produced. The Executive Documents shall be produced as and subject to attorneys-eyes only designation in the first instance. Thereafter, and to the extent not already done, Defendants must timely review the Executive Documents and redesignate those documents for which there is not a good

faith basis to maintain designation for attorneys-eyes only. The Court suggests it may be more efficient for Defendants to conduct review for proper designation at the same time Defendants review the Executive Documents for attorney-client privilege, rather than waiting to conduct a second review after production.

       3.   Depositions: Depositions may commence starting July 17, 2024.

       4.   Privilege Logs: The parties shall meet and confer on timing for exchange of privilege logs.

The Clerk of Court is respectfully directed to terminate the letter motions at Dkt. 100 and 102.

SO ORDERED.
